

The logo for 'Colorido' features the word in a multi-colored, rounded font. A small, stylized lizard with green, purple, and yellow segments is perched on the letter 'o'.

Colorido

KIDS + OUTDOOR + ECO FRIENDLY

Welcome to Colorido Kids

Colorido is a Chilean Brand based in Chile and Europe with influence of scandinavian technical design. It is engaged designing sustainable, practical and stylish outdoor clothing for kids between 1 and 12 years.

Colorido's philosophy is all about allowing kids to enjoy being outside and active whatever the weather by keeping them warm and dry on the inside.

Small details makes the difference. Colorido includes small details which kids will love, but which also include key safety elements such as reflectors and detachable hoods to give parents peace of mind.

We are focussed on protecting the environment and the world which we will leave behind for our children and grandchildren which is why we only use recycled fabrics and use packaging which is 100% ecofriendly.

Our Mission

Colorido want to reduce the environmental impact of garment production and consumption through a sustainable concept.

Our children grow day by day and we as parents want to offer them good quality and comfortable products, but we are also concerned about the way we do it.

Our mission is to reduce waste by using fewer materials and designing clothing that can be repaired or recycled.

KIDS + OUTDOOR + ECO FRIENDLY

General Information

Kids comes in all shapes and sizes, for Colorido the height of the child is the best indication when deciding which size to buy.

When buying outdoor clothes it is often best to chose the bigger size in case an extra layer is needed and most important to give air chance to circulate and keep the body warm.

Washing Information

Washing instructions are included on all our clothing.

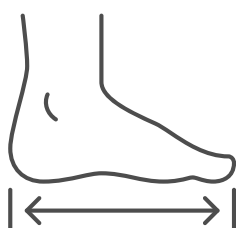

All our clothes are machine washable at 40°C unless otherwise stated on the washing label.

Please note: Repeated washing will over time reduce the water repelling properties. Avoid use of fabric softeners on waterproof items (this also destroys the waterproof properties of the clothing).

There are products available on the market should you need to re-waterproof any items.
